

600 - TECHNOLOGY ASSESSMENT

CONTENTS

INTRODUCTION.....	1
TECHNOLOGY IMPACT	1
NATIONAL HEALTH INFORMATION INFRASTRUCTURE	2
E-HEALTH STANDARDS	3
FINANCIAL INCENTIVES.....	4
PROMOTING ACSIT ADOPTION.....	4
AMBULATORY CARE SETTINGS MUST ADOPT I.T.	5
COST A MAJOR CONCERN TO PHYSICIAN ADOPTION	5
NEXT GENERATION INTERNET RESEARCH ACT OF 1998.....	6
OPERATING SYSTEMS.....	7
UNIX OPERATING SYSTEMS.....	7
LINUX OPERATING SYSTEM	8
PDA AND POCKET COMPUTER OPERATING SYSTEMS	9
MICROSOFT WINDOWS XP	9
SERVER OPERATING SYSTEMS	10
<i>HL7 – Health Level 7.....</i>	<i>10</i>
<i>DICOM</i>	<i>11</i>
MOBILE COMPUTING.....	11
XML WEB SERVICES.....	13
JAVA 2 PLATFORM.....	15
MICROSOFT .NET PLATFORM	15
APPLICATION SERVERS IN INTERNET COMPUTING	17
WEB CACHING TECHNOLOGY	18
DELIVERING PRACTICE INFORMATION VIA INTERNET	18
INTERNAL FIREWALLS	21
DISTRIBUTED SYSTEMS VIA INTRANET.....	21
<i>Common Web Server Features</i>	<i>23</i>
<i>Web Server Applications Layer</i>	<i>24</i>
<i>Overcoming Inefficiencies in Intranet Structure.....</i>	<i>24</i>
<i>Distribution of Services.....</i>	<i>25</i>
<i>Multi-Tier Intranet Structure</i>	<i>25</i>
POMIS APPLICATION SERVICE PROVIDERS.....	26
BRIEF ON ASP EVOLUTION	27

DEFINITION AND CUSTOMER TARGETS	27
<i>Definition of ASP</i>	28
<i>Target Markets</i>	31
TYPES OF ASPs.....	32
<i>Application Categories</i>	32
<i>Service Tiers</i>	33
<i>Qualifying as an ASP Player</i>	33
<i>Pricing Options</i>	34
VIRTUAL PRIVATE NETWORK SOLUTION.....	35
SECURITY ACCESS TO THE IHN INTRANET	36
FRAMING THE HEALTH CARE VALUE PROPOSITION.....	37
HEALTH CARE SECURITY TECHNOLOGY	40
WHAT IS INFORMATION SECURITY?.....	40
WHAT TECHNOLOGIES ARE INVOLVED?	40
FIREWALLS.....	41
HIPAA: PROTECTING THE SECURITY OF CONFIDENTIAL DATA.....	42
THREATS TO ENTERPRISE SECURITY	43
ELEMENTS OF A COMPREHENSIVE SECURITY SOLUTION	46
<i>Physical Security</i>	46
<i>User Authentication</i>	47
ASSESSING AUTHENTICATION.....	52
<i>Access Control</i>	57
<i>Encryption</i>	58
<i>Security Management</i>	59
<i>Internet Protocol Security</i>	60
SECURING END-TO-END DATA ACCESS	61
VPNS AND TUNNEL SWITCHING	61
ADDITIONAL INFORMATION ABOUT INTERNET SECURITY	62
PUBLIC KEY INFRASTRUCTURE SYSTEMS	63
<i>Purpose of Public Key Infrastructure (PKI)</i>	63
<i>Symmetric-Key Cryptography (Secret-key or Private-key)</i>	64
<i>Asymmetric-Key Cryptography (Public-Key)</i>	64
<i>Combining Public- and Private-keys</i>	65
<i>Public-Key Cryptography for Authentication</i>	65
CERTIFICATE OF AUTHORITY SERVICE.....	65
DEBATES ON INTERNET DATA PRIVACY	66
CRYPTOGRAPHY IN AMBULATORY MEDICINE.....	67
EMERGING BIOMETRICS TECHNOLOGY	68
DIGITAL SIGNATURES AND CERTIFICATES	69
COMPREHENSIVE PRACTICE PROCESS MODEL	71
WORKFLOW AUTOMATION DRIVES E-HEALTH.....	73
STANDARDS-BASED AMBULATORY INTEGRATION	76
POMIS INTEGRATION EVOLUTION	76

A BUSINESS CASE FOR PHYSICIAN ORGANIZATIONS	77
BEST-OF-BREED SCENARIO	78
EMERGENCE OF WEB SERVICES	78
INTEGRATION STANDARDS – INHERENT CHALLENGES	79
TECHNOLOGY AT THE EDGE OF HEALTHCARE	80
THE WI-FI STANDARD	80
XML AND THE WEB	81
EMERGING TECHNOLOGIES	84
VOICE OVER INTERNET PROTOCOL (VOIP)	91
VOICEXML ARCHITECTURE	91
SMART CARDS	93
PCs NEW DIRECTION	93
SPEECH RECOGNITION TECHNOLOGY	94
<i>Continuous Speech Recognition</i>	94
<i>Command and Control</i>	94
<i>Text-to-Speech</i>	95
<i>Future Technologies</i>	95
DIGITIZATION OF INFORMATION	96
DOCUMENT MANAGEMENT TECHNOLOGIES	96
NATURAL LANGUAGE PROCESSING TECHNOLOGY	97
<i>General Purpose of NLP</i>	97
<i>Healthcare Use of NLP</i>	97
<i>Computational Linguistics</i>	98
<i>Natural Language Processing Technology Brief</i>	99
NATURAL HANDWRITING RECOGNITION TECHNOLOGY	100
<i>OCR Technology</i>	101
<i>ICR Technology</i>	102
<i>Neural Networking Technology</i>	102
<i>NHR Technology</i>	103
DATA WAREHOUSING	103
KNOWLEDGE DISCOVERY IN DATABASES	104
EMBEDDED DATABASE TECHNOLOGIES	104
<i>Embedded Databases For ASPs</i>	104
<i>Embedded Databases For Mobile Technology</i>	105
BLUETOOTH WIRELESS	105
WIRELESS LANS	106
WIRELESS APPLICATION PROTOCOL	107
INTERNET-READY PDAS	108
SERVICE-ORIENTED ARCHITECTURE	109
ADDITIONAL CONSTRAINTS	110
<i>Stateless Service</i>	110
<i>Stateful Service</i>	111
<i>Idempotent Request</i>	111
DERIVING WEB SERVICES FROM SOA	111
<i>SOAP Web services</i>	111

SOAP RPC Web Services..... 112
REST Web Services..... 112
PLANNING ADVICE FROM CONSULTANTS 112
TECH IQ..... 113
WIRELESS TRENDS 114

EXHIBITS

Exhibit 600-1. Conceptual Implementation Of Application Server 19
Exhibit 600-2. Basic Web Caching Concept 20
Exhibit 600-3: An Internal Firewall Configuration 22
Exhibit 600-4. Structural Overview Of POMIS ASP 29
Exhibit 600-5: Providing Secure Access to the an IDS/N Intranet..... 38
Exhibit 600-6: Interactive Value Chain™ For Healthcare 39
Exhibit 600-7. Potential Security Breach Points..... 44
Exhibit 600-8. Security Concerns Of Senior Healthcare Managers 45
Exhibit 600-9. Reported Progress Toward Compliance With HIPAA Security Requirements 45
Exhibit 600-10. Deploying Digital Certificates 55
Exhibit 600-11. Analysis Of Authentication With Digital Signature 56
Exhibit 600-12. Analysis Of Public Key Infrastructure Functions..... 64
Exhibit 600-13. Version 3 X.509 Certificate Structure 70
Exhibit 600-14. Extended Medical Practice Process Model..... 72
Exhibit 600-15. A General Primary Care Visit Process Map 75
Exhibit 600-16. First Phase of Web Services Standards..... 80
Exhibit 600-17. VoiceXML Architecture 92
